About

I am a Full Stack Developer currently working as an intern at Dot Tech Software in Mawanella, with experience in building responsive web applications. Skilled in both front-end and back-end technologies like HTML, CSS, JavaScript, React, PHP, and MySQL, I focus on creating user-centric and scalable solutions. I'm eager to continue learning and contributing to impactful projects.

|---|-------------|

Awards & Certifications

| | |
|---|------|
| Diploma in English BCAS Kandy Campus - Kandy | 2018 |
|---|------|

Projects

Air ticket Reservation System - Web Application

A web application for air ticket reservations using HTML, CSS, JavaScript, PHP, and MySQL. Key features include adding, removing, and booking flights, user account management, secure payment integration, and an admin dashboard for managing flights and reservations. This system ensures efficient and user-friendly air travel booking and management.

E - Commerce website

An e-commerce web application for selling computers, laptops, printers, and accessories using HTML, CSS, JavaScript, PHP, and MySQL. Key features include adding, viewing, and deleting products, secure payment gateway integration, and user account management. This system ensures a seamless and user-friendly online shopping experience.

E-Learning Website

Developed the front end of an e-learning website using HTML, CSS, and JavaScript. The site features responsive design, interactive elements, and user-friendly navigation to enhance the online learning experience.
